

ITS:Pay-As-You-Go Elite Cash Acceptor for PaperCut MF

Introducing the ITS:Pay-As-You-Go Elite Cash Acceptor for PaperCut MF

The ITS:Pay-As-You-Go (PAYG) Elite Cash Acceptor is a high performance yet economical solution that combines print release, account loader and copy controller into a single unit which facilitates controlling and charging for printing and copying.

The 7.5" colour LCD touch screen can be equipped with a magnetic swipe, contactless or barcode card reader for user authentication. Once authenticated, the user is able to deposit money into their PaperCut account and the print or copy transaction is processed, charged for and logged. The print job is then released, or the copy function enabled, and the transaction balance is displayed.

The ITS:PAYG Elite Cash Acceptor is the ideal solution for environments such as public libraries, university campuses and internet cafes.

Benefits of the ITS:PAYG Elite Cash Acceptor

FLEXIBLE The ITS:PAYG Elite can be utilised by registered users and for guest printing as users are able to self-associate unregistered id cards to their account when they first sign in. It offers a perfect solution for environments where staff are not always available to take payments.

ROBUST The sturdy housing of the ITS:PAYG Elite offers a secure method for self payment in a one piece unit with no separate stand required.

ADAPTABLE The ITS:PAYG Elite connects to your chosen device via the integrated serial port or copier port. Nothing else is required to take payment for copy jobs. The sticker fascia can also be customised with custom instructions and signage.
